Marcus Watson is an artist and graphic designer based in Australia. He uses traditional folk motifs and traditional patterns to create a modern and vibrant style. His work is inspired by the traditional art of folk art, but with a modern twist. He uses a rich palette of colors and bold lines to create a unique and eye-catching style. His work is a blend of traditional and modern art.

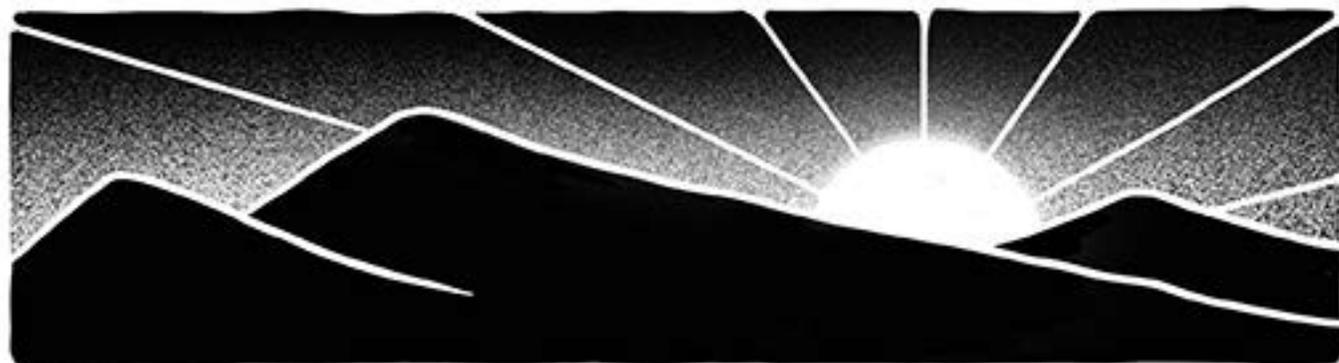

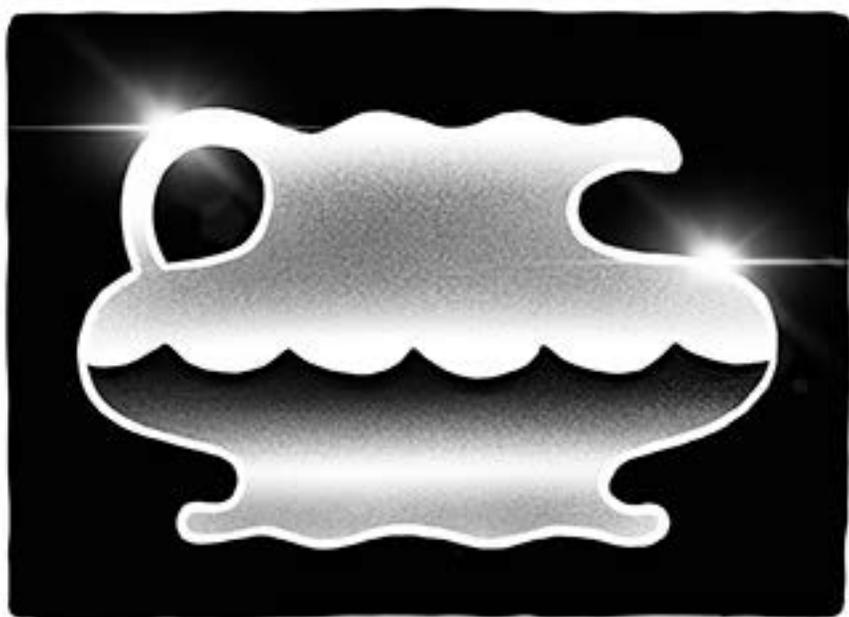

"The idea of folk art is to take the traditional and make it new. It's about taking the old and making it relevant to the modern world. It's about taking the traditional and making it a part of our lives today."
